**Symposium Overview**

National University Health System (NUHS), Genome Institute of Singapore (GIS) and NovogeneAIT Genomics Singapore will be jointly hosting the 1st Annual Human Genomics Symposium, October 14th – 15th, 2019, at the National University of Singapore. The theme of the symposium is “Advancing Genomics Research”.

This symposium will focus on emerging, or next generation research areas in the field of human genomics and technologies for research and diagnostics. This symposium aims to provide a platform for clinicians and scientists to present their work, exchange ideas and learn about the latest advancements in this rapidly evolving field.

The symposium is free for registered participants from academic institutes.
